INTRODUCTION

What is Ndejje Sports?

Ndejje Sports is a data computation system that was built by the ICT Club of Ndejje Senior Secondary School. It was built with and aim of ensuring a fair sports season which is inclusive to the outside parties such as the parent and well wishers. It eases the computation of the results with high level of accuracy and speed in that the audience get the data immediately.

Who is the manual for?

This User manual is designed to help all the users of this system while using this system. The users include the admin users who are the teachers in charge of each sport, the teachers in charge of the houses who will be the normal users and the parents of the students.

What will the user learn from this manual?

The user will be exposed to the various features of the system that will come across and they will learn how to use them and what they do. The user will also learn of their particular capabilities as per the system as well as how to go around certain error if they encounter any. This document will increase the efficiency of the user of this system as they will become experts immediately.

SYSTEM REQUIREMENTS

The following is what's required for on to have an efficient experience on the Ndejje Sports system;

- Device (A Smart phone / Laptop)
- Internet connection
- Browser(Google, Firefox, etc)
- A Gmail account

GETTING STARTED

How to access the System?

For a user to access the System, they can simply type the link below in their browser and they will have immediate access to Ndejje Sports;

https://nextgensb.github.io/Ndejje%20Sports/index.html

The Home Page

The Home page is what the user sees immediately they access the System. This welcomes them to follow a series of sports excitement as we await the winners of the seasons.
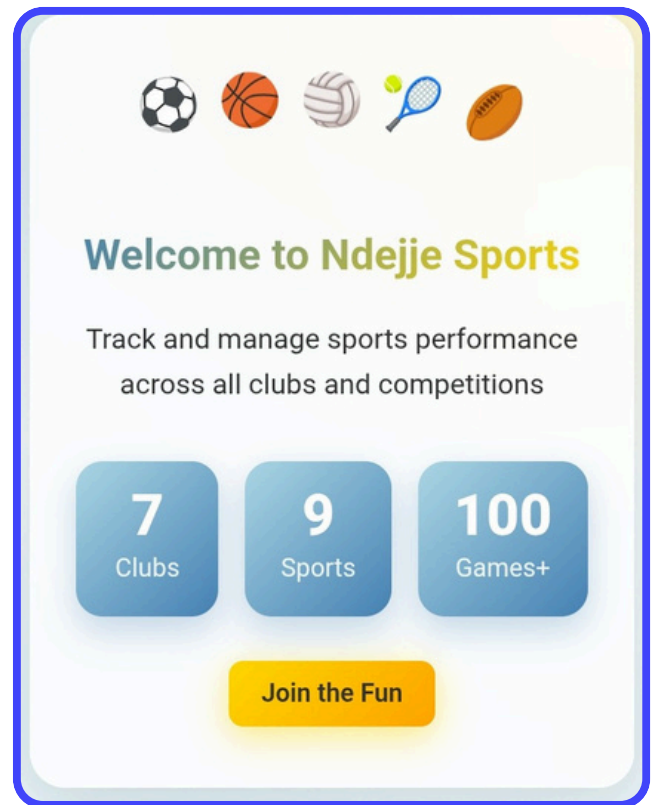

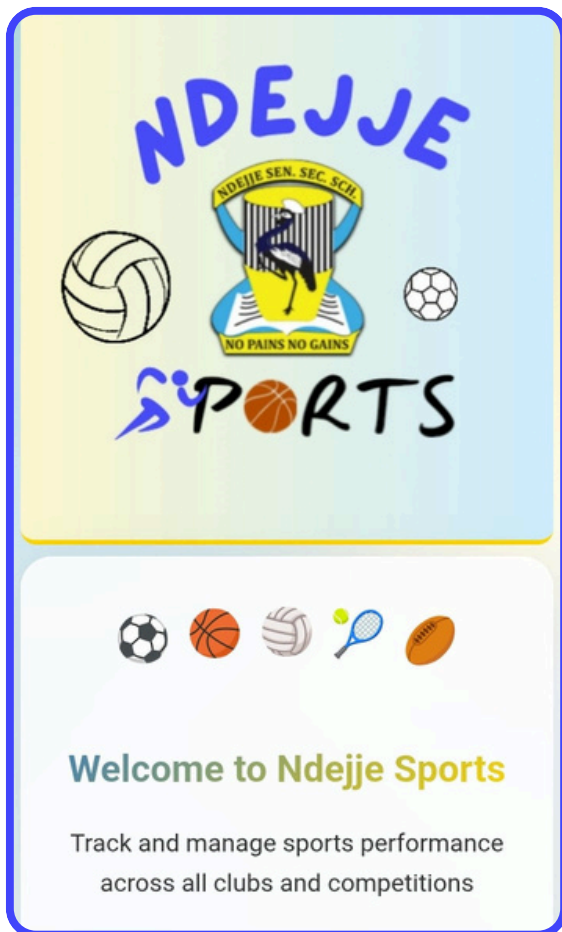

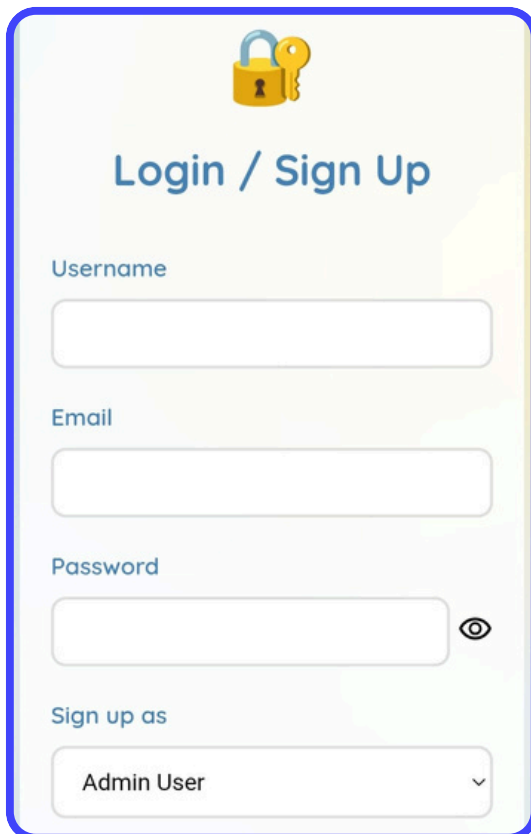

When at the home page, the user has to click the Join the Fun button which takes the user to the sign up or login page.
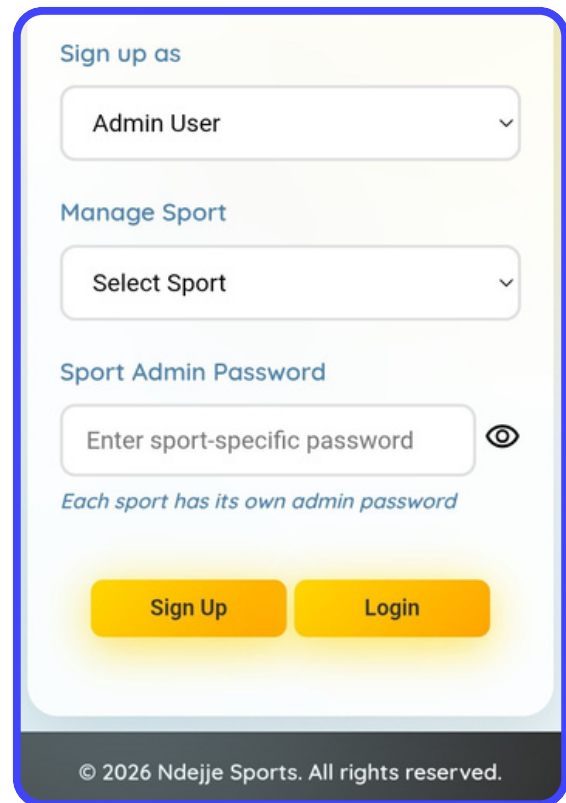

The Sign up / Login Page

This page enables our new user to create accounts in this system and our old users simply log into their accounts .

- **Signing up**

When the user wants to create a new account or Sign up, they simply need to fill in their User name, email and password. These are a must. Then the next step is to choose what kind of user one wants to be, that's to say; Normal user or Admin user.
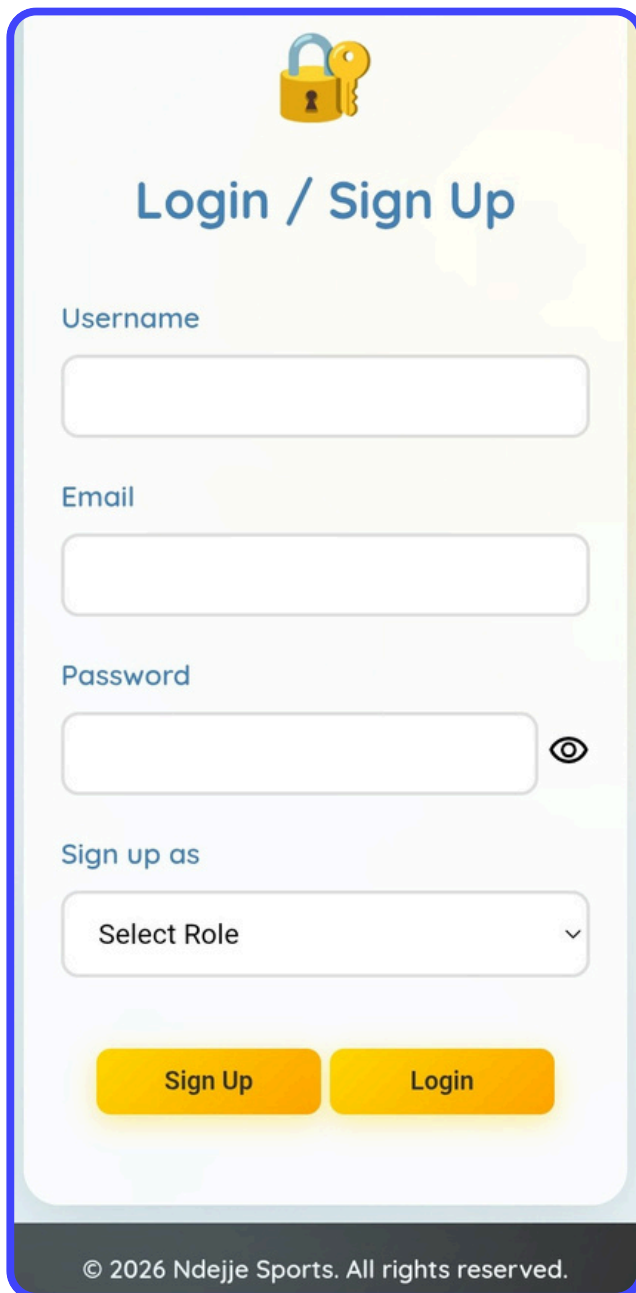

- When the user wants to become a Normal user, they simply choose that option from the select menu and click the Sign Up button.
- If the user wants to become an admin user, they ought to choose that option from the select menu. This opens other fields of information they have to fill in order to continue. The admin user must choose the sport they're in charge of and key in the

NDEJJE
SPORTS

password for that particular sport.
NOTE: Every Sport has a password to it's control dashboard
After that, the user clicks the <u>Sign up</u> button and they are taken to the Admin dashboard.

- ## Logging in

When Logging in, only the User name, Email and password are needed from the user. Therefore when the user already has an account in our system, they are advised to simply log into their account by filling the User name, email and password fields. This restores all their capabilities and information as a user.

The Normal User Dashboard

The Normal User Dashboard has a place that welcomes a user into the system and also offers a logout option when the logout button is clicked

HOUSE	TOTAL
Muyingo	13
Walusimbi	9
Lubambula	7
Kabalega	4
Muteesa	1
Lumumba	0
Mboya	0

The major role of the Normal user dashboard is to enable the user get access instant access to all data which is output by the Sports Department or the Admins of the system. This information includes the overall rankings, the MVPs and the Totals per sport.

The Admin dashboard
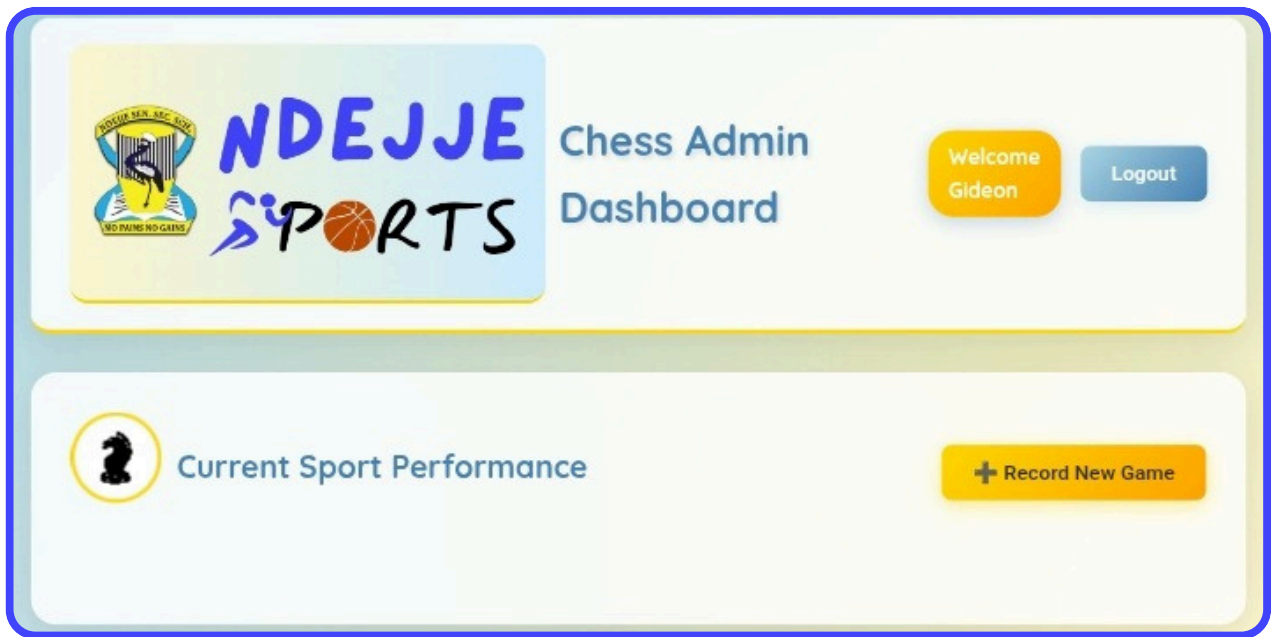

The Major role of the admin dashboard is to enable the user to record the results of every game played. This happens when the user clicks the Record New Game button. This opens up a record form.

The Record form enables the user to set up the information as per the game, that's to say; the house names, the scores per house, as well as the MVPs. The data is then immediately uploaded and tabulated. This enables the public to follow up in the games live.

📋 Recent Game Records

HOUSE ONE	SCORE	POINTS	HOUSE TWO	SCORE	POINTS	DATE	MVP
Muyingo	20	3	Walusimbi	3	0	24/1/2026	Dalse Gideon

Lubambula	6	3	Lumumba	3	0	12/1/2026	Jfatys
Muyingo	3	0	Walusimbi	5	3	12/1/2026	Dhceg

CLEAR DATA

FAQs

What if I forget my Password?

If a user is to forget their password, they can simply login with only their email. This is highly recommended for use in case of an emergency.

Who can Delete the data?

Only the Admin user has the capability to delete the data and this is only possible after the season.
